

Enable the Organization Hierarchy Selection

When you create a node under the organization hierarchy tree, the nodes are not visible in the entity wizard or for assigning an organization group to an existing entity. Configure the following properties to enable the selection for RiskVision users.

1. **entity.organization.assignment.through.hierarchy= [true |false]**

This property displays the new organization hierarchy in entity details pane when it is set to true. By default, the property is set to false.

2. **entity.organization.through.hierarchy= [true |false]**

This property allows you to select new organization hierarchy in entity wizard when it is set to true. By default, the property is set to false.
