Assessment E-mail Templates

The following variables are available to designers of this type of email template:

Variable	Description
email	The email object gives the designer access to the setSubject method, which takes a string that can include other variables.
projectName	The name of the Program associated with this assessment.
surveyName	The name of the Questionnaire.
projectDescription	The description of the Program associated with this assessment.
userName	The recipient of the email, usually a stakeholder in the current assessment.
launchStatusDetails	A descriptive string (Assessment Launch Status template only).
assessmentName	The name of the assessment.
commentOwnerName	The name of the user rejecting the assessment (Review Rejection or Signoff Rejection only).
comment	The text of the comment associated with the rejection (Review Rejection or Signoff Rejection only).

You can add the $NT.getValue("RAProject.version") variable in any assessment email template type to display the assessment's version number.
