

Receive Delegations From Multiple Users

Multiple users can delegate their accounts to you. When you log in, you will see a list of all of the users who have delegated their access to you from the names other than Myself that appear in the dropdown list of users. You can also see which users have delegated their accounts to you using the **Assigned Access Delegations** section in the **Access Delegation** tab. You can also see the date on which each access delegation expires.

The screenshot shows the 'User Settings' interface. On the left is a navigation menu with options: User Information, Change Password, Teams, Dashboards, and Access Delegation (selected). The main content area is titled 'Delegate to Another User' and includes an information box, status indicators for 'Enable Access Delegation', 'Delegation Start Date', and 'Delegation End Date', and a 'Select an user to delegate access' field. Below this is the 'Assigned Access Delegations' section, which shows a table of 3 items. The table has columns for checkboxes, First Name, Middle Name, Last Name, Start Date, and End Date. The items listed are Agiliance, Demo user, and John.

<input type="checkbox"/>	First Name	Middle Name	Last Name	Start Date	End Date
<input type="checkbox"/>	Agiliance	R	User	2013-10-11	2013-10-15
<input type="checkbox"/>	Demo user	C	B	2013-10-12	N/A
<input type="checkbox"/>	John	A	Doe	N/A	N/A

Delegated user accounts in the Assigned Access Delegations section.
