

## Entity Relationship Import Template

The table below lists the attributes available for importing relationships:

| Attribute                 | Description   |
|---------------------------|---|
| *Source Entity Name       | Enter the name of an entity that needs a relationship.                              |
| *Source Entity Type       | Enter the source entity type, such as computer, application, and entity collection. |
| *Target Entity Name       | Enter the name of the entity to which the source entity is related.                 |
| *Target Entity Type       | Enter the target entity type, such as computer, application, and entity collection. |
| *RelationshipType<br>Name | The relationship that you will create between source and target entities.           |

The asterisk (\*) symbol preceding the attributes are the required fields in the import templates.
