

Create the JasperReports Server Repository Connection

To create the JasperReports Server Repository connection:

1. Create a user in the Jaspersoft Report Server application. For information about creating a user in the JasperReports Server application, see [Creating a User in JasperReports Server](#).
2. On the **Window** menu, click **New Window**.
3. The **Repository Explorer** appears at the left-hand side within the Jaspersoft Studio Professional application.

Click the  icon to create the JasperReports Server connection.

4. The **Server Profile Wizard** appears. Enter the JasperReports Server information as follows: Name, URL, and in the Account section, enter the Organization, User, and Password. The User and Password are the user credentials of the JasperReports Server user that you have created in the section, [Creating a User in JasperReports Server](#).
