## **Assessment Email Templates**

The following variables are available to designers of this type of email template:

| Variable            | Description   |
|---------------------|---|
| email               | The email object gives the designer access to the setSubject method, which takes a string that can include other variables. |
| projectName         | The name of the Program associated with this assessment.  |
| surveyName          | The name of the Questionnaire.  |
| projectDescription  | The description of the Program associated with this assessment.   |
| userName            | The recipient of the email, usually a stakeholder in the current assessment.  |
| launchStatusDetails | A descriptive string (Assessment Launch Status template only).  |
| assessmentName      | The name of the assessment.   |
| commentOwnerName    | The name of the user rejecting the assessment (Review Rejection or Signoff Rejection only).                                 |

| Variable | Description   |
|----------|---|
| comment  | The text of the comment associated with the rejection (Review Rejection or Signoff Rejection only). |

You can add the \$NT.getValue("RAProject.version") variable in any assessment email template type to display the assessment's version number.
