

## Entity Relationship Import Template

The table below lists the attributes available for importing relationships:

Attribute	Description
*Source Entity Name	Enter the name of an entity that needs a relationship.
*Source Entity Type	Enter the source entity type, such as computer, application, and entity collection.
*Target Entity Name	Enter the name of the entity to which the source entity is related.
*Target Entity Type	Enter the target entity type, such as computer, application, and entity collection.
*RelationshipType Name	The relationship that you will create between source and target entities.

The asterisk (\*) symbol preceding the attributes are the required fields in the import templates.
