Assigning Content

You can only assign groups, control objectives, controls, and questionnaires. The control list displays all Resolver and organization content.

Resolver recommends assigning the same control types.

To select content, you must know its name and location in the **Controls and Questionnaires** tree. Select all the controls and questionnaires that you want to assign to target entities. You can assign the content to all entities in the project or specify an entity or group on the next page.

Select a group or control by checking the box next to the item and moving it to the selected column using the arrows. The items are grouped into a single assignable unit.

The following table explains the content labels:

Icon	Object type	Description
	Group	Indicates a group of policy packs, controls, subcontrols, questionnaires, and/or automated controls.
	Control Objective	Indicates a control objective and assigns all the controls and subcontrols it contains to a single questionnaire for each entity.
	Control	Indicates a control. Assigns all subcontrols.
	Automated control	Indicates a check template that automatically verifies the settings with a pass/fail score.
	Questionnaire	Indicates a manual questionnaire.

Icon	Object type	Description
	Policy Pack	Indicates a set of organization controls, subcontrols, or questionnaires.
