

Viewing Assessments Based on Group Definitions

Viewing assessments requires the Assessment View permission to be assigned to your user role. Users with the Assessment Manage permission can view all assessments irrespective of the ownership, whereas users with Assessment View permission can only view their own assessments.

By default, the **Assessments** grid displays the entity assessments by of the attributes you have specified to group the entities. You can enable the Assessments hierarchical tree on the left-side of the **Assessments** grid to provide a number of default categories or virtual groups as nodes for displaying specific entity assessments.

To enable the Assessment hierarchical tree:

1. In the directory `%AGILLIANCE_HOME%\config` , open the .propertiesfile using a text editor, and add the property `assessments.landing.page.shownavigation=true`.
2. Reload the server configuration to apply the latest changes.
