

Create an Exception Request - Assessment

You can create an exception for an entity, a failed control, or any control that is not compliant. An exception for a failed control can be created on the **Assessment Details** page > **Control Results** tab or **Exception** tab, or on the **Home** > **Exceptions** page.

To create an exception:

1. Go to **Assessments** > **Assessments**.
2. Select an assessment to open the **General** tab on the **Assessment Details** page.
3. Click the **Control Results** tab, then select a control or subcontrol.
4. Click **New Exception** to launch the **Exception Request** wizard.

The screenshot shows the 'Exception Request' wizard interface. The title bar is blue with the text 'Exception Request' and a close button. The main content area is divided into two sections: '1. Basic Details' and '2. Attach File'. The '1. Basic Details' section is active and contains the following fields:

- Title***: A text input field with a red asterisk indicating it is required.
- Affected Entities**: A text input field with a grey background, a '+' button, and a '-' button.
- Control**: A dropdown menu with a '+' button.
- Reason for Exception**: A large text area for entering the reason.
- Start Date**: A date input field with the value '2020-07-06' and a calendar icon.
- End Date**: A date input field with a calendar icon.
- Next Review Date**: A date input field with a calendar icon.
- Override Compliance Score**: A text input field followed by a '%' sign.

At the bottom of the wizard, there are three buttons: 'Cancel', '< Back', and 'Next >', and a 'Finish' button.

The Exception Request wizard.

5. Enter the exception information, then click **Next**.
6. **Optional:** Add a document from your desktop, link to a document in the repository, or URL. For more information, see [Exception Request Attachments](#).

The Attach File section of the Exception Request wizard.

If you cancel the attachment, it will appear to cancel the entire exception request. Wait a few moments and the exception request will appear without the attachment.

7. Click **Finish** to exit the wizard and to add an exception on [Home > Exceptions](#) page.
