

## Deleting a Group

Deleting a group removes all filters in the group. You can only remove groups that contain unassigned filters.

### To remove a group:

1. In the RiskVision application, go to **Configuration > Filters**. In the Administration application, go to **Users > Filters**.
2. Select the group that contains the one you want to delete. For example, if the group you are removing is in an organization, then select an organization.

**The group displays in the Filter list.**

3. Select the group and click **Delete**.

The group and any subgroups and filters are removed.
