Visualizing Relationships

Relationship visualization allows you to view associations between entities and entity collections for multiple levels of relationships. The Relationships Report provides the relationships of entity collections with entities, entity collections with other entity collections, and entities with other entities in graphical form.

To visualize entity relationships:

1. On the **Entities** menu, Click **Entities**. The **Entities** grid is displayed.

2. From within the Entities tree, expand the group containing the entity you want to visualize its relationships, and select the entity to open its details page.

3. On the entity details page, click the **Relationships** tab. The **Relationships** tab details are displayed.

4. Click **Relationship Report**. The web browser opens the **Relationship Report** in a new window.

To visualize entity collection relationships:

1. On the **Entities** menu, Click **Entity Collections**. The **Entity Collections** grid is displayed.

2. From within the Entity Collections tree, expand the group containing the entity collection you want to visualize its relationships, and select the entity to open its details page.

3. On the entity collection details page, click the **Relationships** tab. The **Relationships** tab details are displayed.

4. Click **Relationship Report**. The web browser opens the **Relationship Report** in a new window.
