

Enabling the Organization Hierarchy Selection

When you create a node under the organization hierarchy tree, by default, the nodes are not visible for you to make a selection in the entity wizard or when you want to assign an organization group to an existing entity. Configure the following properties to enable the selection for RiskVision users.

1. **entity.organization.assignment.through.hierarchy= [true |false]**

This property displays the new organization hierarchy in entity details pane when it is set to true. By default, the property is set to false.

2. **entity.organization.through.hierarchy= [true |false]**

This property allows you to select new organization hierarchy in entity wizard when it is set to true. By default, the property is set to false.
