

Creating New Questions

Create a new question on the fly while creating a new questionnaire, or after a questionnaire is created. In both scenarios, you must first ensure that controls are present in the questionnaire. Creating a new question requires Control View and Control Author permissions.

To create a new question:

1. Open the **New Question** wizard using one of the following methods:
 - ContentRisks > **Controls and Questionnaires**Questionnaires, expand the Organization Content group under the **Controls & Questionnaires** group, and select the **Questionnaires** group to open its details. Select the questionnaire or content pack to open its details, select a control, and click **New Question**.
 - On the **Questions** tab of the **New Questionnaire** wizard, select a control and click **New Question**.
2. Enter a name and text for the question. Optionally, enter the description, weight, reference numbers, help text, and assessment procedures.

New Question

1 Question Details 2 Answers 3 Dependencies 4 Classification

Step 1: Add Questions * = required

Enter the title and the text for the question, and optionally specify weight, help text, assessment procedures, and a description.

- Click **New** to bring on the **Question Choice Editor** dialog and enter the details as follows:
 - **Choice Text.** Enter choice text for the question. For example, enter "Yes" as one of answers the question.
 - **Choice Score.** Enter a positive numeric value between 0 and 10.
 - **Is Default.** Select to show the default answer choice.
 - **Evidence Required.** Select 'Yes' if you want the stakeholders to attach evidence for the answer choice.
 - **Evidence Description.** Enter description for the evidence.
 - **Exception Required.** Select 'Yes' if you want the stakeholders to create an exception for the answer choice.
 - **Comment Required.** Select 'Yes' if you want the stakeholders to add a comment for the answer choice.
 - **Implementation Required.** Select 'Yes' if you want stakeholders to enter deficiency for the answer choice.
 - **Risk Score.** Enter a positive numeric value between 0 and 10.
- Click **OK** to add the answer choice.

Answer Type is selected as **Table**, the questionnaire is in the tabular format. In the **Table Configure** section, users can configure the table format.

Click the **Add Columns** icon and **Add Row** icon, under the **Table Configure** section to add the required number of columns and rows required in designing the tabular format questionnaire. Enter the required Column Name and Row Name to be displayed on the table when answering the questionnaire.

- When answer type is selected as the Text box.

The wizard will not require you to add answer choices.

- When answer type is selected as Time Series.

The wizard will require you to select the Collection Frequency **Formats, and units of metric**

- When answer type is selected as Date.

The wizard will not require you to add answer choices.

4. After the answer choices are added, the choices appear in the **Answer Choices** section. The answer choices appear in the **Questionnaire** window the order they appear in the **Answer Choices** section. To change the order, click the upward or downward arrow in the answer choice row.

<input type="checkbox"/>	Choice Text	Is Default	Choice Score	Evidence Required	Exception Required	Comment Required	Implementation Required	Risk Score	Add risk if un-selected	
<input type="checkbox"/>	Yes	No	10	No	No	No	No	0	No	↑ ↓
<input type="checkbox"/>	No	No	0	No	No	No	No	10	No	↑ ↓

Click **Next** to continue.

Renaming choice text will not clear the answer choices of a question in target questionnaires. If you have to rename the choice text, delete the choice text you would like to change first, and then create new choice text to replace the deleted choice text.

5. The **Dependencies** wizard page appears. This step is optional. You can add dependent questions only for **Radio buttons** and **Checkboxes** answer type. Use the answer choices you created in the **Answers** wizard page to further prompt stakeholders to answer more questions or add questions so that questions are answered automatically if a particular answer choice is selected.

To add questions to be prompted or to be answered automatically, click **Add or Remove Questions** to open the **Must Answer Questions** dialog. Select questions in the **Available Questions** box and click the arrow pointing towards the right to move questions to the **Selected Questions** box. Then click **OK**.
