

Controlling the Visibility of Propagation Tab

The **Propagation** tab on the assessment details page and the **Propagate Control Results** option in the **More Actions** drop-down list on the **Assessments** tab of the **Program** details page are shown by default for users who have the Assessment Update and/or Assessment Manage permissions. These features are visible in both Compliance Manager and Enterprise Risk Manager applications. If you do not want to implement the propagation feature in your use cases, you can hide it by mentioning the `enable.propagation = false` property in the `.properties` file.
