

About the Questionnaire Answering Interface

To answer a questionnaire, you must have the Questionnaire Answer permission.

To view the Questionnaire Answering Interface from the Questionnaires page, choose any one of the below mentioned options:

- Click the **Questionnaire** link
- In the **Actions** drop-down list, choose the below:
 - **Work on this Questionnaire**
 - **Resume Questionnaire**

The **Questionnaire Answering Interface** page appears as shown below:

- The left side navigation pane displays the questionnaire details and if the questionnaire is subdivided into sections pertaining to a specific policy or control the sections of the questionnaire. Click the section to display a table with a list of questions in the main pane.
- The sections of the questionnaire displays the controls and policy titles, the number of questions in the section, and status.

a. Compliance	0/2 Answered	Not Started
b. Vulnerability Management	0/4 Answered	Not Started
c. Policy	0/2 Answered	Not Started
d. Training and Awareness	0/2 Answered	Not Started

- Click this section to display a list of questions in the main pane. The right side pane displays a list of questions in case there are more than one question. The questionnaire details include the assessment name, the entity name, the stage progress and the questions.

Icons	Description
	Flagged for follow-up
	Answer requires resolution

	Comments
	Exception
	Mitigation
	Evidence

- Click the question to open it in the main pane.

The screenshot shows a software interface for a questionnaire. On the left, a sidebar contains a progress indicator: 'Application 0/19 Answered Not Started', with checkboxes for 'Automatically go to next' (unchecked) and 'Show progress and summary' (checked). The main area is titled 'Question 1 of 19' and 'Goods returned and accounts received'. The question text is: 'Are credit notes for goods returned and adjustments to accounts receivable issued in accordance with organization policy?'. Below the question are five radio button options: 'Yes', 'No', 'Don't know', 'Qualified Value', and 'Not applicable'. A 'Clear Choices' link is present. A 'Comments' tab is selected, showing a text input field with the placeholder 'Click to enter text' and a 'Keep this comment private' checkbox. At the bottom, there are navigation buttons: 'Previous', 'Delegate', 'Refresh', 'Next', and 'Done'. A 'Follow up' and 'Risk Report' link is also visible.

- The questions are displayed in the right-hand side of the window. You can specify an answer or rating for each question and then click the Previous or Next button to move to the next question.

Some questions are designed to have dependent questions, such that when a user selects a choice, it enables the dependent question.

- Click the **Done** button, to stop the questionnaire-taking process. User is navigated to the **Thank You** page.
- Select any one of the options below:
 - Select **Submit for Review**, when user wants to submit the questionnaire and move to the workflow stage 'Review' after all questionnaires are submitted.

OR

 - Select **Close now and resume later**, when user is not done with this questionnaire, but wants to close it for now and resume later.

Questionnaire-taking preferences associated with an assessment determine specific behavior and options available to questionnaire-takers. For example, you may have an option Skip Answered Questions, then the questionnaire

display skips next or previous questions that have already been answered.
