

## Create an Exception Request - Assessment

You can create an exception for an entity, a failed control, or any control that is not compliant. An exception for a failed control can be created on the **Assessment Details** page > **Control Results** tab or **Exception** tab, or on the **Home** > **Exceptions** page.

### To create an exception:

1. Go to **Assessments** > **Assessments**.
2. Select an assessment to open the **General** tab on the **Assessment Details** page.
3. Click the **Control Results** tab, then select a control or subcontrol.
4. Click **New Exception** to launch the **Exception Request** wizard.

The screenshot shows the 'Exception Request' wizard. On the left, there's a vertical navigation bar with tabs: '1. Basic Details' (selected), '2. Attach File', and '3. Summary'. The main area is titled 'Step 1: Enter Exception Request Information'. It contains the following fields:

- Title\***: A required field with a red asterisk, currently empty.
- Affected Entities**: A list box with a '+' and '-' button to add or remove entities.
- Control**: A dropdown menu with a '+' button to add controls.
- Reason for Exception**: A large text area for entering the reason.
- Start Date**: A date input field set to '2020-07-06' with a calendar icon.
- End Date**: A date input field with a calendar icon.
- Next Review Date**: A date input field with a calendar icon.
- Override Compliance Score**: A numeric input field followed by a '%' symbol.

At the bottom, there are buttons for 'Cancel', '< Back' (disabled), 'Next >', and 'Finish'.

*The Exception Request wizard.*

5. Enter the exception information, then click **Next**.
6. **Optional:** Add a document from your desktop, link to a document in the repository, or URL. For more information, see [Exception Request Attachments](#).

 No Documents found.																				
<input type="button" value="Cancel"/>	<input type="button" value="&lt; Back"/>	<input type="button" value="Finish"/>																		

The Attach File section of the Exception Request wizard.

If you cancel the attachment, it will appear to cancel the entire exception request. Wait a few moments and the exception request will appear without the attachment.

7. Click **Finish** to exit the wizard and to add an exception on **Home > Exceptions** page.
