

Deleting a Group

Deleting a group removes all filters in the group. You can only remove groups that contain unassigned filters.

To remove a group:

1. In the RiskVision application, go to **Configuration > Filters**. In the Administration application, go to **Users > Filters**.
2. Select the group that contains the one you want to delete. For example, if the group you are removing is in an organization, then select an organization.

The group displays in the Filter list.

3. Select the group and click **Delete**.

The group and any subgroups and filters are removed.
