

Changing the Setting of an Ownership Type

You can change the display name and role restrictions. Modifying role restriction only affects new ownership assignments.

To modify an ownership type settings

1. Go to **Configuration > Ownership Types**.
2. Select the ownership type.
3. Click **Edit**. The **Configure Ownership Type** dialog appears.
4. Modify the configuration and click **OK**.

The display name is updated immediately. Role restrictions apply to the next owner assignment.
