

## Document Conventions

The following conventions are used to help the user identify certain types of information.

Convention	Usage
<b>Bold</b>	Command names, options, windows, and screen objects, such as buttons and links. For example, the <b>OK</b> button.
<i>Italics</i>	Variable information, wizard page names, and book titles.

Convention	Usage
<b>bold</b>	Command names, options, window, and screen objects such as buttons and links (for example, the <b>OK</b> button).
<i>italics</i>	Variable information, wizard page names, and book titles.
<code>monospace</code>	File names, attributes path names, and programs.
