

Resolver Support and Professional Services

Resolver offers both Professional Services and Customer Support to assist customers at every stage of the application's lifecycle. This support includes the initial deployment, future expansion or migration, and ongoing use of the platform.

For customers looking to design and configure a tailored security risk and compliance management solution, Resolver Professional Services can help with installation and configuration, content development, automation options, process development, and report design. For more information or to inquire about a Resolver Professional Services engagement, please contact your Resolver Customer Support Representative.

Resolver Customer Support can assist the user with any product questions and resolve issues that may have occurred with the RiskVision deployment.
