

## Delete a Group

Deleting a group removes all filters in the group. You can only remove groups that contain unassigned filters.

### To remove a group:

1. Go to **Configuration > Filters**. Or, in the Administration application, go to **Users > Filters**.
2. Select the group you want to delete.

**The group displays in the Filter list.**

3. Click **Delete**.

The group and any subgroups and filters are removed.
