 valli mantha	2016-12-14 00:01:56	Yes	10.100.16.110

Number of users that recently logged in: 12 [More details](#)

This pane can be used to keep track of the users that have logged in and if they are still active.

- If a user logs out, the Active column shows "No".
- The "Since" column is the time at which the user logged in.
- The "Location" is to differentiate user sessions using the same account at the same time, but from different computers.
