

Getting Started

All logged in users of any RiskVision application are directed to the **Welcome** page, on the **Home** menu. The **Welcome** page contains active tasks and messages which require your attention. The tasks are divided into categories and displayed as sections with links. If you are not a stakeholder in any task, you will not see any links in the sections. By default, each section will show up to five items you might own more tasks. By clicking the "**Go to...**" link below the section, you will be navigated to the respective page of that section, on the **Home** menu, to view the exhaustive list of items. Besides accessing sections, the **Welcome** page also provides **Quicklinks** to pages so that you can be directed to the desired area instead of having to manually navigate through the RiskVision applications.

Here's the complete list of pages on the **Home** menu, which appear based on your role and the RiskVision application:

- Welcome
- Message Center
- Tickets
- Exception Requests

The pages as discussed above will help you to view, edit, or update the list of doable items, and these operations can also be accomplished from other points in RiskVision applications. Typically, the stakeholders who will not need their extreme participation in ITGRC projects are provisioned to access the pages on the Home menu. The user interface of each page can be customized to fit the needs of your business goal.

Before you move on to understand the purpose of these pages, RiskVision recommends to familiarizing yourself with the navigation, tree and grid, actions, user settings, and the advance search. For more information, see [Navigating in RiskVision](#) .
