

## Configure Entity Compliance and Criticality Ranges

The **Range** option controls the numeric score for the low, medium, and high or VL (very low), L (low), M (medium), H (high), and VH (very high) selections a user can make on various RiskVision pages as well as the color and ranges that display in graphs and charts on dashboard pages and reports.

- **Compliance range:** Controls the numeric values for displaying overall compliance levels, such as on the **Assessment Details > Control Results > Compliance Summary** pane.

- **Criticality values:** Controls numeric values for the choices on **Entity Details > Classification > Security Requirement**. The Business criticality is an average of the confidentiality, integrity, and availability security requirement settings. It displays on the **Assessment Details** page and in reports.

To modify a range:

1. Go to **Configuration > Entity Configuration**.
2. Click **Ranges**.

**Configure Threshold**
✕

**Threshold For:** Entity Criticality Configuration Revert

| Threshold   | Label   | Color   | Display   |
|---|---|---|---|
| Less than <input style="width: 40px;" type="text" value="0"/> <input style="width: 20px; height: 20px; border: 1px solid #ccc;" type="button" value="+"/>   | <input style="width: 60px;" type="text" value="Unknown"/> | <input style="width: 100px;" type="text" value="Gray"/> <input style="width: 20px; height: 20px; background-color: #ccc; border: 1px solid #ccc;"/>     | <input type="radio"/> Text <input checked="" type="radio"/> Score |
| Between 0 and <input style="width: 40px;" type="text" value="5"/> <input style="width: 20px; height: 20px; border: 1px solid #ccc;" type="button" value="+"/> <input style="width: 20px; height: 20px; border: 1px solid #ccc;" type="button" value="-"/> | <input style="width: 60px;" type="text" value="Low"/>     | <input style="width: 100px;" type="text" value="Green"/> <input style="width: 20px; height: 20px; background-color: #008000; border: 1px solid #ccc;"/> | <input checked="" type="radio"/> Text <input type="radio"/> Score |
| Between 5 and <input style="width: 40px;" type="text" value="7"/> <input style="width: 20px; height: 20px; border: 1px solid #ccc;" type="button" value="+"/> <input style="width: 20px; height: 20px; border: 1px solid #ccc;" type="button" value="-"/> | <input style="width: 60px;" type="text" value="Mediumu"/> | <input style="width: 100px;" type="text" value="Gold"/> <input style="width: 20px; height: 20px; background-color: #FFD700; border: 1px solid #ccc;"/>  | <input checked="" type="radio"/> Text <input type="radio"/> Score |
| Greater than <input style="width: 40px;" type="text" value="7"/>  | <input style="width: 60px;" type="text" value="High"/>    | <input style="width: 100px;" type="text" value="Red"/> <input style="width: 20px; height: 20px; background-color: #FF0000; border: 1px solid #ccc;"/>   | <input checked="" type="radio"/> Text <input type="radio"/> Score |

3. Choose **Entity Criticality Configuration**, then click **Edit**.
4. Click **+** to increase the Threshold range.
5. Click **-** to decrease the Threshold range. The color will change based on the selected Threshold range.
6. Click **OK**.
