

## Reassessing Entities Based on Criticality

The **Advanced Scheduling** options allow you to set the date and time to relaunch all assessments in the project as follows:

Advanced Scheduling

Schedule assessments to recur at different times based on criticality. Change to [Basic Scheduling](#)

**High Criticality**  **Medium Criticality**

**Low Criticality**  **Unknown Criticality**

**First Recurrence Date**  

**Start the Program**

Today

On the first recurrence date

| Setting                             | Option  | Description  |
|-------------------------------------|---|--|
| High/Medium/Low/Unknown Criticality | Never   | One time assessment for the entities with the <a href="#">criticality setting</a> . First and only assessment occurs when the project launches.<br><br><i>Note: Selecting 'Never' disables other recurrence options.</i> |
|                                     | Monthly, Quarterly, Semi-Annual, Annual, Every 2 years, Every 3 years | Entities with the <a href="#">criticality setting</a> are reassessed on the date indicated by first recurrence.  |
| First Recurrence Date               | Long Date   | Select the date and time you want to launch the project for the first time and for every recurrence thereafter.  |
| Start the Program                   | Today   | On launching the project, the assessments process begins.  |
|                                     | On the first recurrence date  | Assessment process begins on first recurrence date, not when the project is launched.  |
