

User Settings Overview

You can view and change your profile settings on the **User Settings** page, which can be accessed by clicking the **User Settings** link in the upper-right of every page.

From here, you can change your email address and password, view your teams, select a dashboard to display on the **Welcome** page, and delegate access to another user.

The screenshot shows the 'User Settings' page. On the left is a blue sidebar with the following menu items: 'User Information' (highlighted), 'Change Password', 'Teams', and 'Dashboards'. The main content area has a title 'User Settings' and a subtitle 'Update your email address. This is the address to which notifications are sent from the RiskVision application.' Below this, it displays 'Current Email Address: administrator@yourdomain.com' and 'New Email Address:' followed by an empty text input field. A 'Save' button is located below the input field.

The User Settings page.
