

Version 9.3.5 Release Notes

JasperReports Server v7.2.0

The latest version of JasperReports Server comes with multiple enhancements, including:

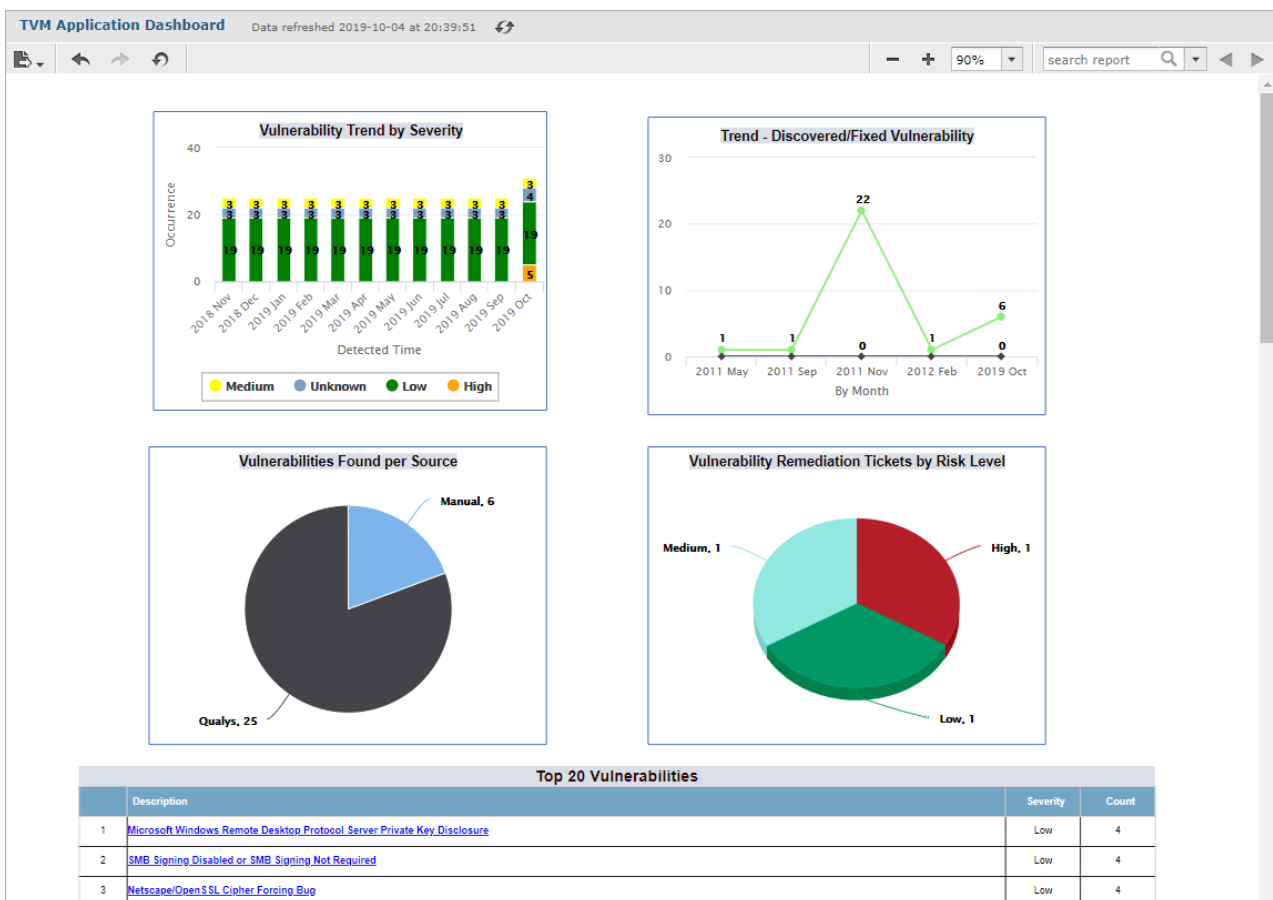

- Improvements to adhoc reporting performance and scalability;
- A new domain designer; and
- Improved keyboard and screen-reader support in the report viewer.

JasperReports Server Diagnostics Guide

RiskVision now offers a [JasperReports Server Diagnostics Guide](#) to explain the tools used to monitor, diagnose, and improve the Jasper server's performance.

Jasper Dashboard on TVM

The old Flash-powered dashboard on the home page of RiskVision's [Threat & Vulnerability Manager](#) application has been replaced by one that is powered by Jasper.

Remediation Section in Control Results

The Control Results drill-down page on the [Assessment Details](#) tab will now display a Remediation section.

Control/Test Details: SubControl [Close]

Subcontrol: SubControl

Description: N/A

Q: SubControl

A: 4: Control is partially in place with no current plan to implement
