Remove a Compensating Control From a Vulnerability

If a vulnerability compensating control has been added to a vulnerability in error, or if it no longer applies to the vulnerability, it can be removed by a user with the Threats and Vulnerabilities View and Update permissions. Removing the vulnerability compensating control from a vulnerability will not delete it, but it will clear the assigned **Detection %** and **Protection %** values for this vulnerability.

To remove a vulnerability compensating control from a vulnerability:

- 1. Open the Vulnerabilities menu.
- 2. Click any page, such as My Vulnerabilities, Vulnerabilities from Scanners or Users, or Inferred Vulnerabilities.
- 3. Click a vulnerability.
