The Technologies tab.

The **Technologies** tab shows all the CPEs that have been imported with the Threat report, as well as options to allow the user to attach or create new ones.

The **Technologies** grid displays the following columns:

- **Title:** The name of the attached technology.
- **Vendor:** The name of the vendor that the technology comes from.
- **Product:** The type of product the technology is attached to.
- **Version:** The current version of the technology.
- **Description:** A description of the technology.
- **URI:** The URI of the CPE.
- **Part:** Whether the technology is hardware or software.

Users can perform the following actions:

- **New:** [Create a new technology](#) automatically attached to this threat.
- **Attach:** Search for an existing technology to attach to this threat.
- **Detach:** Remove the selected technology from this threat. Doing so will not delete the technology.

Click on a technology to view the **Technology Details** page.
